CAREER OBJECTIVE

BCA graduate with skills in Python, Web Development, Data Analytics, and AWS Cloud Fundamentals. Eager to begin a professional career in a technology-driven organization where I can utilize my technical skills, gain hands-on experience, contribute to team objectives, and continuously develop my knowledge and expertise.

ACADEMIC PROFILE

- **Bachelor of Computer Application** **June 2023 - March 2026**
Christ college (Autonomous), Irinjalakuda, Kerala - Affiliated to Calicut University
CGPA - 9.515
 - **Plus Two** **June 2021 - March 2023**
GVHSS Cherpu – 97.75 %
 - **SSLC**
St.Xavier's HS , Chevoor – 100 %
-

INTERNSHIPS

- Intern | AI and Machine Learning–CSEED | 2week** **May2024 - June2024**
 - Gained hands-on experience using Spyder and Anaconda to explore machine learning concepts such as logistic regression, data visualization with Seaborn, and line chart analysis for AI-based model development.
 - Intern | Full Stack Development – ICT Academy | 1 month** **June 2025 - July 2025**
 - Gained hands-on experience in end-to-end web development using HTML, CSS, JavaScript, React, Node.js, and MongoDB, creating responsive, dynamic applications. Developed strong team collaboration, problem-solving, and version control skills through agile-based project practices.
-

CERTIFICATIONS

- Data Science with Python, ICT Academy of Kerala
 - Microsoft Office Specialist Excel Associate Office (2019)
 - Full Stack Development, ICT Academy of Kerala
 - IT Specialist - Data Analytics, Microsoft
 - Introduction to Machine Learning, IITKGP
-

PROJECT

- Task Flow – Web Application
Technologies: HTML, CSS, JavaScript, Node.js, MongoDB
Developed a task management tool using MERN stack for tracking team productivity and deadlines.
 - WingSpan Airline – Travel Website
Technologies: HTML, CSS, JavaScript
Developed a responsive airline travel web application for flight booking and ticket download.
 - Argus FL – Intelligent Cybersecurity Model for Intrusion Detection using Federated Machine Learning
Technologies: Python, Federated Learning, Machine Learning, SQLite, Flask, TensorFlow/PyTorch.
A privacy-preserving intrusion detection system that uses Federated Machine Learning to identify cyber threats across distributed devices securely.
-

SKILLS

- Soft: Leadership, Communication, Problem Solving, Teamwork, Adaptability
- Hard: Python, Linux, Data Analysis, AI/ML, AWS Fundamentals, Git & GitHub, MongoDB, Node.js
